

250 mg/100 mg Tablets
atovaquone/proguanil
hydrochloride

Maloff Protect Pack Size Calculator

How much Maloff Protect does the customer need?

Maloff Protect will need to be taken **once daily** to ensure the maximum chemoprophylactic benefits.

Customers should purchase enough tablets to cover the following:

- One or two days before travelling to an area which has malaria
- AND the total number of days they expect to be in the malaria area
- AND the seven days after returning to a malaria-free area

Days in malaria area	Total number of tablets	Recommended pack size
7 (1 week)	16	1 x 24
14 (2 weeks)	23	1 x 24
21 (3 weeks)	30	1 x 36
28 (4 weeks)	37	2 x 24
42 (6 weeks)	51	1 x 36, 1 x 24
56 (8 weeks)	65	2 x 36
84 (12 weeks)	93	2 x 36, 1 x 24

The maximum duration of travel for which Maloff Protect can be supplied without prescription is 12 weeks (93 tablets). For longer durations of travel, advice should be sought from a doctor or other qualified prescriber.

Please read the SmPC or Patient Information Leaflet for further information.

All adverse drug reactions should be reported. Reporting forms and information can be found at <http://mhra.gov.uk/yellowcard>.

Date of preparation July 2017
